

LEGAL ALERT

REAL ESTATE INVESTMENT AND MANAGEMENT COMPANIES (REIT)

The Portuguese Government has recently approved the legal regime of Real Estate Investment and Management Companies, internationally named as Real Estate Investment Trust (REIT).

These companies will be an important vehicle for the structuring of real estate investments in Portugal, as well as a very relevant instrument to consider when restructuring the existing real estate investments in the Portuguese market.

Morais Leitão, through a multidisciplinary team that includes lawyers specialized in real estate, tax and capital markets, is following closely the developments in these matters and is available for any further clarifications.
