Objectives

The aim of the webinar is to improve and raise awareness of the target groups in relation to cybercrime, mutual legal assistance in the field of digital crime, investigative techniques and e-evidence. This webinar further develops the knowledge received at previous project events in this field.

Who should attend?

This seminar has been developed for Latvian judges, prosecutors, investigators and policy makers

Methodology

This online seminar is conducted via Zoom. Sessions will include different elements such as lectures, breakout rooms, quizzes, and discussions, especially looking at the Latvian situation.

Tuesday, 20 April 2021
